PROFESSIONAL SUMMARY

I am currently pursuing a B.A. in Multiplatform Journalism with a minor in International Studies, and I plan to complete my degree by May 2022. As a student, I am committed to partaking in campus organizations and opportunities, and volunteering around the community. Currently, I am a member of Falcon Media, Campus Outreach and World Student Association. Furthermore, I plan to pursue a career in journalism and international studies with a news or magazine outlet, or non-governmental organizations. I aspire to help and connect with other people and to work through the issues that afflict the world today, and I plan to pursue a career surrounding this aspiration. I also plan to pursue an advanced degree once I have secured a career a few years following graduation from Bowling Green State University.
